Measuring guide

1. Measure book height

Height = 196mm

H196mm Slip-over Cover should fit but we recommend allowing 2mm extra. Therefore, choose H198mm.

2. Measure book width: front

Front = 128mm

Book overall width: 286mm

Sizes shown in the table opposite are for maximum book H x Wmm
Choose: product 4206-325 = H198 x W310mm

3. Measure book width: spine

Spine = 30mm

4. Measure book width: back

Back = 128mm

Instructions to fit

1. Slip front cover into Slip-over Cover

2. Slip back cover through band

3. Slip flap through band

4. Use finger and thumb to press along edge so that Slip-over Cover sits flat

5. Straighten cover

6. Covered!

Keep the corners covered!

Ensure your book fits within the maximum stated Slip-over Book Cover width. You will find guidance in the table opposite.

If your book is wider than the maximum Slip-over Book Cover width, the corners of your book will be exposed, potentially leading to damage. It is best to exceed the book width by 1-2mm.
