

Demco® Mika Shelving

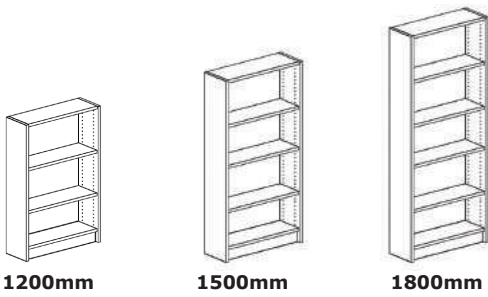

Mika

Create a truly flexible library or reading space with Mika Shelving. The range consists of single-sided wall and double-sided free-standing units which can be supplied with castors. You can add as many extension units as necessary to create your own individual layout. Each new run will need its own starter unit, then just carry on extending. Choose from a selection of contemporary finishes.

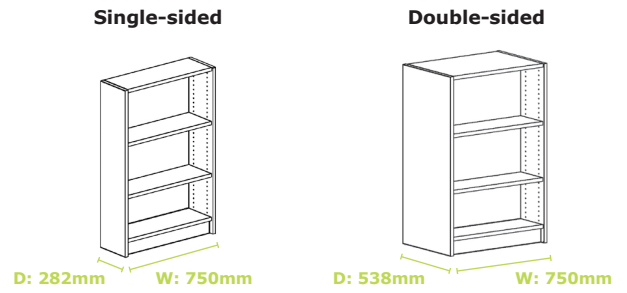

- Made from 25mm melamine faced chipboard
- All units supplied with levellers as standard (castors available separately)
- Display shelf available separately
